COLD POINT PLYMOUTH.

Happenings of Local Interest to Our Readers.

Business Improving—Hold-Ups Frighten Harmonville—Hickorytown Mission Prepares for 10th Anniversary Next Sunday—Grange Surprises James K. Thompson.

Cold Point grange, No. 606, met in its hall Tuesday evening at Hickorytown and invested candidates with the first and second degrees. The grange is growing steadily in numbers and interest. The property at Hickorytown is rented by the Houseal family, the grange reserving several rooms for its own purposes.

Samuel Fisher, Jr., of Hickorytown, has purchased the local milk route from Addison Nitterauer and has already taken possession.

$13.20 have been contributed by the pupils of the Plymouth Consolidated school to the local committee for the relief of the children of Europe.

The Plymouth township school board are holding under consideration and negotiation the purchase of ground at Ivy Rock on which to erect a much-needed school for that section. It is believed that by the time the building conditions are favorabie in the spring the board will be ready to proceed with the work, as all the preliminary details will be worked out by that time.

Mrs. Harvey Rex, Mrs. Eugene Lightkep, Mrs. Wiliam White and Miss Catharine Rodebaugh, of Hickorytown, attended the evangelistic services which are being conducted by Mrs. Kichline at the charge of their former pastor, Rev. R. W. Musselman, Philadelphia.

L. M. Proctor, of Cincinnati, O., with his family, has moved into one part of the remodeled double dwelling opposite John S. Young's store, Plymouth Meeting. Mr. Proctor is a chemist in the employ of the American Magnesia company, which owns the house into which he has moved.

Mrs. Annie Moyer, of Philadelphia, spent several days last week with her niece, Mrs. David Rhoads, in Hickorytown.

Mr. and Mrs. J. Pierce Rhoads and family, of Hickorytown, spent Sunday with Mr. and Mrs. Charles Rhoads, of Norristown.

Mr. and Mrs. Morris Bieber, of Cold Point, on Sunday entertained Mr. Forepaw and family, of Springhouse.

Milton R. Marple, of Hickorytown, was laid up several days of last week suffering with rheumatism.

The E. J. Lavino company has recently installed telephone lines and 'phones from its central office here to the various parts of its plant, thus connecting the stone crushing plant, the ore mill, the brick kiln, the store room and the shipping department.

Emanuel Woods, of Cold Point, who has been quite ill, is improving.

Mr. and Mrs. Dawalt and son, of the Lavino row of dwellings, who were all ill with diphtheria, are recovering. The lad developed diphtheria after an attack of scarletina. Other sick persons in the same row—and every home was for a time afflicted—are reported convalescent.

Addison Nitterauer, who conducts a milk delivery route through this section, has received an appointment as a rural mail carrier and will probably be assigned to the Norristown No. 4 route, formerly cared for by Samuel Sands Sr., of Cold Point, who has been retired by age. Since last summer the route has been served by Substitute Carrier Smith, of Norristown. Edward Jones has been serving Mr. Nitterauer's milk route.

Miss Minnie Roth, of Easton, had been spending a few days with Rev. and Mrs. D. G. Reinhold, of Plymouth Meeting.

The E. J. Lavino company employes of the brick department were employed all day Sunday loading a consignment of bricks on a rush order.

The old barn at Harry Lees, Plymouth Meeting, has been razed all but two main stone walls which seem as firm and solid as they were a century ago when erected.

On Wednesday evening of last week the second hold-up in the Harmonville section occurred, when William Dutill, of Cedar Grove, was accosted on the Ridge pike and relieved of $7, a tick pin and a gold watch. The first victim was Samuel Wood one evening in the previous week, who was held up at the trolley switch soon after 7 o'clock. These affairs of lawlessness have stirred up the residents, and few of them are bold enough to venture far from home after night-fall unless accompanied. No good description of the guilty party has been secured, as both of the operations took place in dark places, and although both roads are main thoroughfares and frequently traveled, there was no traffic along just at the time, and in each case the operation required only a few minutes.

The 10th anniversary of the Hickorytown Union mission will be appropriately celebrated next Sunday afternoon and evening, when a suitable program will be rendered, Judge Miller, who reides near the mission and who has just returned from Orlando, Florida; H. W. Atkins, of Conshohocken, and others will be the speakers in the afternoon, and an interesting program is ternoon. Benjamin Evans, of Norristown, will lead a quartet, and Miss Helen Evans will recite, and an interesting program is being prepared for the evening, which service will be in charge of Rev. J. H. Davies, of the American Sabbath School, and one of the local little girls will sing. There will also be several other speakers. Messrs. Carson and Ewing, who conceived the idea of the mission and carried it forward with the help of the community and other friends, have proven the weight of their influence and efforts for good in the neighborhood, and the fame, usefulness and christian influence for brotherly helpfulness have gone abroad into wide territory. The mission has won success by deserving it, and Messrs. Carson and Ewing have been consistent exponents themselves of the principles which the mission has sought to instill into hearts of all those who have come within the scope of its influence.

Some repairs are being made to the Casey house, on Chemical works road, which property was acquired a year or more ago by the E. J. Lavino company.

Montgomery County League Meets.

The opening gun for the baseball season of 1921 in the Montgomery county league was fired last Saturday afternoon when the annual meeting fo the league was held at Hotel Walton, Philadelphia. The election of officers was held and resulted in all former officers being re-elected. They are: President Harold Pike; vice president, William Diehl; secretary, Charles Hetzell; treasurer, Harrison Y. Stover. The same committee on protested games was appointed, consisting of President Pike, Vice President Diehl and Connie Mack, of the Athletics. Several applications for membership in the league were received. Among these were: Glenside Jenkintown, Perkasie, Quakertown, Royersford and Conshohocken. None, however, was acted upon, but a discussion took place towards making the league an eight-club affair, which is not received with much favor by the delegates. The past season, President Pike said was an excellent one in every way, and today the organization has a standing second to none of the so-called minor leagues. High class baseball was played by every club during the past season and almost up to the last game the pennant was in doubt. Larger crowds than ever were present to witness the contests of 1920, and it is hoped, President Pike said, that the same standard will be set for the coming stason.

There was much speculation as to the make-up of the teams, it being a rule that at the close of each season all players are free agents and may sign with any team in the league. It was announced at the meeting that the interest of Doylestown will be looked after by Joseph Wodock, who is president of the club: Raymond Wodock, will be manager, and Francis Wodock, captain. There is no question but that the latter will be a tower of strength to the county seaters, as he is a fast fielder and always a most dangerous man at the plate. His brother, Raymond, has also been looked upon as one who knows more inside baseball than a large number of mangers today. Both boys were formerly with Ambler, where they made a record that was an excellent one.

Farm Fire Loss $30,000.

The total loss as a result of fire which swept the large barn and outbuildings and destroyed the season's crops and farm machinery at the 100-acre farm of Michael Levin at Montgomery Square, is estimated at $30,000. This amount is only partially covered by insurance. Four horses were burned to death. The house and tenant house on the farm tract were saved.

Son's Death Kills Mother.

A sad scene met the eyes of Frank Sahms, Friday when he arrived at his home, 169 Front street, Conshohocken, after being summoned from his work in the Ivy Rock Steel plant by neighbors of the family.

Frank Sahms, Jr., has been confined to his home for several months suffering from a leaking heart, and his mother, on Friday after seeing that he was comfortable, left the house to make some purchases.

Within 15 minutes she returned to find that her son had passed away during her short absence. On being told that he had died she sank down on a couch nearby and said, "This will kill me." She arose, took a drink of water from the spigot, and feeling faint, walked outside after fresh air, sitting down on a bench.

A neighbor, seeing that she was ill, sent for a physician, but just as the physician arrived the woman expired, shortly afterwards the husband came home.

Mrs. Sahms was 52 years of age and had been suffering from fatty degeneration of the heart. Because her husband, she is survived by one son, Howard, of Wissahickon, and one brother, John Hill, from Manayunk.

The deceased son is survived by his wife, who was Miss Eva Wilfong before her marriage, and a son, Frank, six years old.

LEAGUE OF WOMEN VOTERS.

Purposes as outlined by Mrs. T. Duncan Just.

To Familiarize the Women With the Machinery of Government so They Can Vote Intelligently—Non Partisan, It Appeals to All Women—The Officers.

During the past few weeks many inquiries have come from varied sources with regard to what the League of Woman Voters is and what it stands for, and it was suggested what an outline as the the why and where for of this organization, be given through the medium of the "Ambler Gazette."

"The League of Women Voters," is a nation wide organization of women, who, not only desire to vote intelligently but who aim to exercise that privilege for the best possible good of our country, state and community, and who feel that the responsiblity does not end with the casting of the ballot on election day. Women as voters must become familiar with the machinery of national, state and local government. This they hope to accomplish through stated meetings, lectures and infomation acquired by the appointed standing committees as well as through the state and county leaders. The league is composed of women of all political parties, united in patriotic, political and civic interests, especially interested in having women elected on the school boards, believing that on a school board of five—tw should be executive women of their own choice, believing in the enforcement of unobserved laws, especially those which have to do with health, morals and personal safety. Every woman who is interested in the community in which she lives, can make her influence more effective by joining the league, for it is generally conceded that the organizated body can accomplish more good, than one individual.

The League is not antagonistic to men or men's organizations and the members believe that all civic conditions may be improved, and all good legislation brought about more quickly by the cooperation of men and women. It is not a segregated political party for women, they must vote through the political party for women, they must vote through the political parties of their choice. A woman need not declare her politics when she joins this league.

"The League of Women Voters" is not interested in the knowledge of a woman's party affiliations, but it is interested in clear thinking, clean living, trustworthy candidates who shall be elected to handle the offices of our community and in whom our confidence must repose. It plans to know something about the candidates and offices on the primary ticket, before it is handed out to be voted.

Cooperation is the key-note—all working together for the common good of the state and nation, and for the betterment of all hmanity.

Mrs. Maud Wood Park, of Washington, is national chairman; Mrs. F. Louis Slade, of New York, regional chairman; Mrs. John O. Miller, of Pittsburgh, state chairman; Mrs. Herman Livingston Swartz, of Wynnewood, chairman of Montgomery County.

Farm Chimneys Need Study to Be Made Safe.

All chimneys for farm buildings should start from the ground. Those placed on brackets are unsafe and often increase the rate of insurance. In a properly designed house of moderate size, one or at most, two chimneys, each containing several flues, will serve every purpose. If possible, a flue should be cared for each stove, as much better drafts are thereby obtained, say specialists of the United States Department of Agriculture.

The chimney should have a solid foundation of brick or stone, and if of brick, of course, an extra footing should be laid. The exterior walls should be two bricks thick and the division walls one brick thick. In case the chimney is lined with one of the patent fire-clay linings now on the market one brick will prove of sufficient thickness for the exterior walls.

In case it is necessary to carry a stovepipe any considerable distance inside a partition to reach thec himney a terra cotta thimble should be used, and where a pipe passes completely through a partition it should be protected with a ventilated thimble.

In no case should a stovepipe enter a chimney. The necessity of such makeshifts can usually be avoided.

The attendants were Miss Myrtle Souder, a sister of the bride and Earl Place, of that borough. A reception was held, following a wedding dinner at the bride's home, at the home of her grandparents in Royersford, where a number of the friends of the couple had gathered and showered congratulations upon them.

'Body' in Road Part of 'Holdup' Scheme

The dummy completely attired, found on Ridge pike, near the Jeffersonville school-house, late one night recently, has aroused the authorities to suspicions that hold-up men intended to operate in that vicinity, and that the quick wit of Clarence W. Scheuren, of Collegeville, prevented their plans from being carried to reality.

Scheuren, driving a Ford, noticed what appeared to be the body of a man lying in the road. The form was in the middle of the highway and he was about to stop, when he suddenly thought of the numerous holdups all over the country at the present time, and circling the body, he drove with full speed to the Jeffersonville Inn.

Here, he enlisted three others, who, with firearms accompanied him back to the school house. The quartet climbed from the auto, only to discover that the "body" was a dummy clothed from head to foot and stuffed so that only a close inspection would reveal that it was not that of a human being.

A search of the surrounding fields failed to uncover any suspicious characters. Nevertheless, the residents of West Norriton in the main, are of the belief, that a bold holdup game was nipped in the bud by Scheuren and his three comrades.

To Print Price on Each Railroad Ticket

A new policy of printing the price on the face of railroad tickets will be adopted by the Pennsylvania railroad it will take effect immediately, and as fast as the present supply of tickets is exhausted new tickets will be printed for the first time showing on each ticket the amount of the fare. The Pennsylvania Railroad has decided to adopt the policy with respect to railroad tickets as a protection to both its passengers and its ticket agents.

In order to avoid waste, tickets between any two points already on hand will be used up, but all new tickets printed will show their price, except inter-line tickets, on which it is not practical to put the new policy into effect. One of the first of the new ticket supplies to be printed is for transportation between Elmira, N. Y. and Altoona, Pa. At the bottom of each ticket is printed: "(Fare, $6.08; War Tax, $0.49)."

It will sometimes happen, of course, that changes in established tariffs authorized by the Interstate Commerce Commission and State Public Service Commissions will necessitate a different fare charge, taking effect after a supply of tickets has already been printed with the price previously in effect. In this case the tickets on hand will be stamped with the new price until tickets bearing the new price are printed, and ticket agents will be instructed to show passengers the tariff schedule in the event that the new charge is questioned.

Accumalation of Flesh is Suicide to a Man.

Personally, I am already convinced that corpulence is the greatest course of the age says W. Atherton Dupuy. It threatens the well-being of the race. It is unpleasant to the eye. It offends the artistc sensilities. The possessors of most of it hate it worst. It smoothers love, ambition, life itself. It is the modern plague.

There have always been more people who suffer from an overidulgence in food, a thoughtful surgeon of the United States public health service told me, than from the excessive use of alcohol—ten times as many.

"The man who allows himself to get fat cuts ten years off his life, maybe twenty years," said the statistcian of a great life insurance company. "It is no greater risk than a fat man. A fat man of three-score years and ten is almost as rare as a white black bird. The accumulation of flesh is suicide."

"We will not employ a fat person," I was told by an agency which worked 2,000 clerks. "A clerk who is fifty pounds overweight is not fifty per cent. effiicient. That clerk requires extra space in which to function and slows up the team in any cooperation undertaking."

"Corpulence is never a necessity," said the dietitian of the 4,000,000 men who made up our army during the war. "It caused by but one thing, the consumption of more food than the system needs."

The whole stupendous, misunderstood, misrepresented subject, the fact, cause, and cure of corpulence, can be written in twenty-sevn Anglo-Saxon words of on syllable, each of which even the lethargic mind of the obes ought to be able to understand. Here they are:

Fat comes from food. If you have too much fat you eat too much food. You can get rid of the fat if you eat less food.

Our scientific friends say it differently and increase the confusion. Here is the way one of them puts one part of the fact: "Adipose tissue, subcutaneously imposed," he said, "is derived from carbohydrates ingested.

It is a well-established fact of physics that you can't make something out of nothing. You can't build a mountain of flesh out of water or air. It is absolutely sure and irrevocable that the flesh can be reduced to any degree desired by reducing the food.

Neville D. Tyson to Be Honored.

Fifty years of service as an attorney in Montgomery county courts, on the part of Neville D. Tyson, who in his early life resided at Penllyn, will be fittingly observed by the judges and lawyers of the county. Steps to this end were taken at the meeting of the Montgomery County Bar association, which has elected these officers for the present year: President, Joseph Fornance; vice-president, Nevill D. Tyson; secretary, William F. Dannehower, Sr., treasurer, George K. Brecht; board of censors, Montgomery Evans, N. H. Styer and Jesse R. Evans.

The bar also named a committee to revise the constitution and by-laws of the association.

A resident of the borough claims to have the most unique dog in the country. Recently a bolt was dropped off a washing machine and before it could be picked up the dog had swallowed it. Pins are his most appetising diet, it appears, said the owner recently. "A short time ago we had a baby visiting us and it wore three gold pins. Later the pins were removed from the child and the dog soon discovering their whereabouts promptly swallowed them. Nothing like pins, iron bolts or nuts can be left lying about where this dog is," she said.

Although the Asbestos Shingle Slate and Sheathing Company is still running full handed, the orders received from day to day are only as were received last year at this time, which shows how extremely dull everything is in the building line. There cannot be any great activity in the erectich of dwellings until the cost of lumber, wages, hardware and materials generally, come down, so that a house which now costs $5,000 can be built for $3000 or $3500, and which could have been built for about $2250 before the war. Almost all the shingles that are being ordered now are being used upon old houses where the roof has become so bad that the owner is forced to take it off and put a new one on. There is little or no new building going on at present even in those parts of the country where the weather conditions are favorable. Everything in theb uilding line depends upon lower basis conditions, before any real start is made, as the paper plans are being held up in the architects' offices all over the United States.

Ask $5000 Property Damage.

Alleging that negligence of the borough of Conshohocken is responsible for the damage to their Second avenue property, Frank and Rosa Cardamone have filed a suit asking for $5000 damages. The Caramones claim that improper grading, long tolerated and never corrected, has brought a great quantity of water through a ditch from surrounding streets into their property, forminggullies which create an ufitfit and dangerous condition. It is claimed the drainage comes from 87 houses, churches and public schools, and seven streets dump their water into the lot in question.

Wayward Youths Costly to County.

The county of Montgomery finds the care of its wayward youth is rather a costly proposition. The county commissioners have issued a warrant for $4545 to the Huntingdon Reformatory, paying for theb oard of 37 youths sent there during the past year. This is at the rate of 61 cents per day, which is 3 cents cheaper than the rate of maintenance at the Eastern penitentiary, and 15 cents more expensive per day than the boarding at Glen Mills institution. Both boys and girls are admitted to the Glen Mills institution, and Montgomery county has twenty-four boys and twenty-two girls in that place during the past year, the bill amounting to over $1600.

Concrete Street for Doylestown.

Main street is part of the new Philadelphia and Easton highway, all of which is eventually to be concrete. The agreement was reached and the road promised yesterday when the parties involved agreed upon terms. The Philadelphia Rapid Transit company will be released of a borough ordinance that compelled them to keep the street in the borough of Doylestown between their trolley tracks repaired, and also eighteen inches on each side. With this ordinance revoked the state highway will go ahead with the work and the traction company will deal with the state department.

32,000 Motorists Broke Law in 1920.

Just how many automobiles violated the motor vehicles law last year would be as hard to estimate as the number of adults in the state who did not violate the Volstead act, but during the year 1920 inspectors of the automobile division of the state highway department notified 32,000 motorists that in some particular they had broken the automobile laws.

During the same period more than 3000 garage owners and automobile dealers in second-hand cars had their attention called to violations of the law. The inspectors caused the arrest of 758 persons charged with various offenses against the automobile law.

In 13,325 instances the inspectors told motorists that their head lamps were casting beams of light either too bright or too dim. This class of violations led all the rest.

A total of 868 trucks were found to be operating contrary to the provision which requires that where vision of the road to the rear is obstructed cars must be supplied with mirrors.

Old Stables Removed in Conshohocken.

The Montgomery stables, a number of frame buildings located on Marble street between Fayette and Forrest streets Conshohocken, are being torn down. The work of demolition was begun by Contractor William More.

The stable was originally erected by the Michael O'Brien many years ago and is still owned by the estate. About thirty years ago additional sheds were erected and the stable was occupied by the late Frank Skeen who removed his livery stable from Hector and Poplar streets to this location. The business was later carried on by Charles Skeen, who retired from business about ten years ago. Since then the property has been little used. The buildings are old and dilapidated and have become an eyesore.

The demolition of the buildings was simply to remove from the borough a nuisance and fire trap.

Important to Feed Farm Flock the Right Food.

Feeding the farm flock the right kind of food is important if it is to be a paying proposition. If hens do not get sufficient or proper feed they cannot be expected to give satisfactory and profitable results. A complicated ration is not necessary. The aim in feeding the hens should be to use, so far as possible, the grains that are grown on the farm or that are available in the immediate neighborhood. One of the most successful methods of feeding is to give a light feed of grain or a mixture of grains in the morning and a feed of the same material at night, the night feed consisting of about as much as the hens will clean up.

In addition a dry mash should be provided where the hens can have access to it continuously. When considerable quantities of waste food are available for the hens to pick up from the fields, the amount of grain fed may be cut down. Oftentimess judgment in this respect is faulty, and but for the dry mash there would be danger, that the hens would not receive enough feed. With the dry mash at their disposal they are able to make up any deficiency of feed due to faulty judgment as to the quantity they get in the fields.

One of the most common mistakes made in feding farm paultry is failure to provide animal food in some form. Of course during thes pring and summer, when quantities of insects are available, they may supply the hens' wants in this regard, but, during those parts of the year when insects are not available, or are scarce, it becomes necessary to provide animal food. Milk, usually fed either as skim or buttermilk, provides an excellent source of animal food, but when milk is not available the hens should have beef scrap. While this product is high in price, it is economical, and should be included in the hens' ration because of the increased production that will result.

During the winter it is necessary to provide some form of green or succulent feed, such as mangels, cabbage, clover, alfalfa, or sprouted oats.

Stolen Auto as Lure.

An automobile stolen from Frederick F. Renninger, brother, of Frank X. Renninger, of Glenside, was used by the robbers, in a frame-up accident, in Camden, to lure a taxi-driver from his car. The Renninger auto was stolen in Philadelphia.

The taxi-driver, William Bishop, of Berlin, N. J., was robbed of $560 with which he was going to buy a new machine, and the stolen car was found abandoned later in Camden.

TOWN TOPICS.

This Wednesday evening Ambler borcouncil will meet, and on Friday evening the school board will also hold its monthly session.

Chief of Police Richard S. Ford has declared war on automobilists who are making a practice of violating the borough traffic laws and the state motor law. Many cars are seen without lights, others parked on the wrong side of the street. Officer Ford states that he is tired of warning violators, and in the future he will prosecute.

The county convention of the Patriotic Order Sons of America, comprising the camps of Montgomery county, will be held Ambler Camp room Feb. 22, Washington's birthday. There will be two sessions, morning and afternoon, and it is expected there will be about 200 delegates present. In the evening the members of Ambler camp and many of the delegates will attend the class initiation of he order to be held in the Metropolitan opera house, Philadelphia, at which time it is expected that 150 candidates will be admitted to the order.

Quite a large number of men in the borough are out of employment. They are principally carpenters stonemasons, bricklayers and helpers. The most of these unemployed are members of the union and it will be interesting to note what wages will be demanded in the spring when building operations are resumed.

Christmas Salmas, of the Main street electric shoe repairing shop, is one man who can consider himself lucky During last summer he bought a $1000 express money order to send to his mother in Greece. However, he was not afforded the opportunity to carry out his desire until a short time ago. Shortly after securing the order he boarded a trolley car in Philadelphia and when he alighted he found that his pocket had been picked of his pocketbook containing the $1000 order and a small sum of currency. He at once notified the express company and after months of waiting a new order was issued by the company, which Mr. Salmas promptly forwarded to his mother.

"It certainly takes a long time for local mail to reach you," said a lady recently in the office of Justice of the Peace Urban. "Late last winter you mailed a dog license tag and receipt, which I only received one day last week." According to the postmarks on the envelope the letter must have traveled all over the county before some bright clerk discovered that it belonged to someone in Ambler," she added.

Ground hog day this Wednesday, according to the weather wise folk, will designate the weather for the next six weeks. Few "ground hog days" in the past 10 years, however, have run true toform. The experience has been that however bright the sun or cloudy the atmosphere on that day there were sure to be six more weeks of winter and the only hope held out is that winter will end with the middle of March instead of continuing on into the second week of April, as has been the experience of recent years.

Several iron poles along Butler avenue have recently been moved by the Lehigh Valley Transit company to positions on North Spring Garden street and North Ridge avenue. The pole in front of the old blacksmith shop on Butler avenue, where the pavement is very narrow, was especially in the way, and its removal is a correspondingly big improvement.

HUNGRY KIDDIES REVERE AMERICA

Fugitive Writer Tells How Starving Jewish Little Folks Regard U. S.

IS ONLY FOOD SOURCE

Small People Look to This Country as Land of Childish Dreams—Jewish War Relief Campaign to Raise Funds.

"The most ardent patriot in all the United States cannot love America as the starving children of Eastern Europe love it today."

Samuel Charney, a Jewish writer and critic, who was enabled to get to America from Poland at this difficult time by means of a passport secured for him by Samuel Gompers, brought this account of the 4,000,000 destitute children of Eastern Europe to America.

"There is not one of all those youngsters who does not know that it is America that is keeping them alive," he said. "When they get the bowls of soup for which they stand in line for hours at the Jewish relief stations, and partly satisfy their constant hunger with it, they think of America. When they get warm clothing to replace the rags that they have worn during all the years of the war, (though this has happened to only a few of them as yet), they think of America. The word 'America' is often on their tongues, and they say it with awe, as the religious speak of God."

The lives of these hundreds of thousands of children depend upon America' charity during the coming winter, Mr. Charney said. Without her continued aid they cannot live.

Philadelphia and the surrounding counties of Berks, Bucks, Delaware, Chester, Lancaster, Lebanon, Lehigh, Montgomery and Northampton are organizing the Jewish War Relief Campaign to raise the Philadelphia district's quota of the relief funds. Dr. Cyrus Adler, of Philadelphia, is the general chairman.

DOUGHBOYS' PAJAMAS MADE INTO CLOTHES FOR LITTLE JEWISH SUFFERERS OF WAR

Philadelphia.—The pajamas of the American doughboy, like his hobnailed shoes, are destined to have a place of their own in the youthful history of the reconstructed countries of war-devastated Europe, for this article of doughboy apparel is now appearing in public on the streets of many of the smaller Eastern European cities in the form of "hand-me-downs," on the figures of the little citizens.

American Jewish Relief workers abroad tell of this metamorphose. Cloth of any kind, either cotton or wool, is almost impossible to obtain except at prohibitive prices. Consequently, when Miss Harriet B. Lowenstein went to Europe as "purchasing agent" on a great scale for the children who needed the relief, made possible by Jewish funds, she bought among other things, a carload of pajamas from the salvage department of the A. E. F.

These were sent to Eastern Europe work rooms where the remodelling process from pajamas into blouse suits, etc., was gotten under way. Each pair of pajamas made at least two suits. What was left over was used in lieu of shoes.

NOT HIGH COST OF LIVING BUT JUST LIVING PROBLEM OF JEWISH WAR SUFFERERS

Philadelphia.—The folks in many of the towns in Central and Eastern Europe no longer refer to the "high cost of living"—just living or barely existing is the real problem today! That's why the approach of winter presents such a gruesome problem. Incidentally, it is one of the things which the funds to be raised by the Jewish War Relief Campaign of the Philadelphia district during the week of November 17th is aimed to fill.

The cost of clothing in enough to make even the average Philadelphian who has grown accustomed to $12 and $14 shoes and $75 and $100 overcoats, to shudder. And it is not entirely because of the thoughts of coming winter.

For instance, a pair of second-hand shoes in Serbia cannot be had for less than the equivalent of $50 in American money. An overcoat of the same quality costs $150; a spool of thread cannot be had for less than eighty or ninety cents.

What is true of the clothing also applies to even a pound of butter, for this costs about $5, and a pound of very ordinary beef cannot be had for less than $2.50.

There was a recent epidemic of sickness in the Jewish quarter of Jerusalem, due to sewers which have been left open since the time of the Turkish regime. The old government started to put in a new drainage system, but in true Turkish fashion they quit in the middle of the job. Funds contributed by American and British Jews recently completed the work.

He gave the past grand master's jewel, presented to him by the Grand lodge, of Pennsylvania, I. O. O. F., to his grandson, Harvey H. Heyser, Jr. The jewel presented to him by Radiant chapter, No. 96, O. E. S., is given to his granddaughter, Miss Caroline J. Heyser.

State Police Record for 1920 Surprising

The Pennsylvania state police recovered $475,697 worth of stolen property last year, according to figures announced Major L. G. Adams, the superintendent. The report of state police activities during 1920 also shows that the fivetroops arrested 3,456 persons against 7,845 in the previous year. State troopers traveled 1,250,000 miles patrolling their territories.

In addition to the stolen property restored to its owners by the state police last year, large quantities of liquor transported through the state in violation of the federal prohibition laws was confiscated.

A summary of the various offenses for which arrests were made shows 67 for murder, 25 for rape, 41 for arson, 78 for burglary, 116 for robbery, 642 for larceny, and for other offenses, 7,494.

Rasmussen Urges Laws for Seed Protection.

Adequate laws governing introduction of seeds into Pennsylvania were declared to be an absolute necessity by Professor Fred Rasmussen, secretary of agriculture, speaking before members of the bodies forming the agricultural societies of Pennsylvania, which began sesions here.

State supervision of seeds is essential, he said, and the state must protect itself or else "it will soon be made the dumping ground for impure and poor seed."

Six points in agricultural progress is the State were discussed by Secretary Rasmussen. Progress must be made along lines of complete and reliable crop and livestock reports: complete market reports as to supply, demand and prices; increased storage and warehouse facilities and place of production; standardization and grading; extension of credit, based upon warehouse receipts, and co-operation in buying and selling.

"Objects of a new seed law should be to prevent sale in the state of impure seed of poor germinating qualities, and seed not suitable for our conditions," he said. "A sample of seed recently found on the market of this state proved to be only 12.97 per cent pure and contained 77.93 per cent inert material. At the present market price of this seed, which is less than $10 per 100 pounds, the farmers would actually have paid $67.50 per 100 pounds for the seed, as the sticks, chaff and stones which the seed contained are of no value.

Ohio Shot Carries off Honors at Fortside

Many of the live bird shots who completed in the Eastern championship events at Reading on January 24 and 25 were entrants in a big live-bird shoot at the Firtside Gun club last week. One of the big winners of the day was M. B. Orr, of Piqua, Ohio. Orr tied for first place in the 20-bird feature event with 18. In the tie with him were Frank Jackson, of Garret Hill, and Izzy Hoffman, of Wilmington, Del. Orr also tied for first money with five others in two 15-bird events and won a miss-and-out with 7 straight and tied with Frank Jackson, of Garrett Hill, in another.

Samuel A. Kissler, of Mt. aCrmel, Pa., won a 15-bird event with 14, tied for first in another 15-bird event, and was third in the 20-bird even. Izzy Hoffman tied for first in the 20-bird event and was tied for second in each of the 15-bird events. He won a miss-and-out with 10 straight.

A peculiar incident occurred during the shoot. A bird was hit by William Clegg, of Philadelphia, and after circling about the limits, dropped stone dead just out side. The bird's feathers were picked out of curiosity and it was found that it had carried 18 grains of No. 7 shot out of bounds. Not one of the shooters had ever seen such a performance before.

JENKINTOWN.

The public school was entered by thieves. The sum of $15 was taken from a safe, and the sewing room was found disarranged. The same night an attempt was made to enter the jewelry shop of O. E. One goes around incurring small debts here and there. Doesn't know how he will meet them; only knows they mount up alarmingly fast.
Another doesn't owe anybody anything yet, but he's running on a dangerously narrow margin, and wearing himself out trying to keep up with the game.
Another saves a little each week from his earnings and puts it in the bank. He's finding a lot that's worth while in life.

Woman Juror Long Ago.

While considerable ink is flowing relative to women serving as jurors in Pennsylvania, the theme is rather old in Chester. It has been proved that this city had the first jury of women empaneled in this country, and that was in 1689.

The history of the Carter family, one of the early settlers of Pennsylvania has the following to say about the public service of one of its members: "Mary Carter was one of a jury of women empaneled in Chester in 1689 to examine a female convict and report whether she could endure the punishment the Court had ordered.

The appointment of this jury was made in conformance with a rule laid down by William Penn.

Effects of Constipation.

Constipation causes a stoppage of the sewerage system of the body. The poisonous refuse matter that should be carried away is retained in the system and often poisons the blood and causes numerous disorders. No one can afford to neglect his bowels. A dose of Chamberlain's Tablets will afford relief. Avoid drastic cathartics as they take too much water out of the system and their use is likely to be followed by constipation. feb

Experienced Farm Hands Seeking Work

Farmers of Pennsylvania have begun to look up their spring labor, and for the first time in many months branches of the State Employment Bureau show there has been a jump in the number of persons seeking such work over the demand. During the Fall a decline in demand for farm help occurred, but owing to the open weather it was not as great as usual.

The past six weeks there have been many men with experience on farms seeking employment in agriculture.

Arrangements have been made at the various branches of the State Bureau to set apart days when farmers can meet men or women who wish to work on farms this spring and summer, and it is believed this plan will enable the serious shortage of farm hands to be met. In addition it has been learned that many men who went from farms to varous industries during the war have returned to the rural sections.

Robert J. Peters, chief of the state employment bureau, says the number of applicants for agricultural work in December at the various state agencies was 1036 with only 266 asked for by employers, but that farmers are asking to be put into touch with men who want farm work. In Philadelphia, in December, more than 850 persons applied at the State agency to get farm work, while in Pittsburgh there were 169 applicants for work on farms.

Foot and Mouth Serum is Found by French.

A serum for the prevention of foot-and-mouth disease has been disbovered by a commission of French experts, but it is impossible at present to manufacture it in sufficient quantities to inoculate all cattle against the plague. The commission is composed of Professor Roux, Nocard, Carre and Valee, which was formed at the request of Parliament, and will submit its report to the ministry of agriculture shortly.

Attention is now being given to increasing thep roduction of the serum, of which there is only enough to inoculated the prize cattle and valuable animals of the world, including those in Argentina, Brazil and Uruquay.

Professor Vallee, who is attached to the Alfort Governmental Agricultural School Laboratory, discussing the disease today, said the microbe was invisable under the microscope, it being so infinitesimal that it passes through porcelain filters.

The virus used in the manufacture of the serum can be obtained only from the diseased parts of affected animals, namely, the mouth and feet and thus very small quantities are available.

James S. Rich Died Suddenly.

James S. Rich, one of Bucks county's most highly respected citizens and the only remaining Bucks county member of Captain Durell's famous battery in the Civil War, died suddenly at his home, Clinton street, Doylestown, Friday noon, Jan. 14, at the age of 81 years.

After enjoying almost perfect health throughout his life, Mr. Rich was bedstricken for the first time two weeks ago. Death as caused by an attack of acute indigestion.

Born in Buckingham township, Mr. Rich lived in Bucks count practically all his life with the exception of a period of probably fifteen years in Beverly, N. J., and in Philadelphia. In Philadelphia he conducted a successful grocery business. After that he moved back to the old Rich farm in Bucks county, and for the last thirteen years has lived in Doylestown.

Mr. Rich was a past commander of General Robert L. Bodine Post, No. 306, G. A. R., of Doylestown. He was one of the few remaining Civil war veterans in Doylestown. He enlisted in the army when 21 years of age and served with distinction.

For twenty years Mr. Rich was secretary of the Brownsville Horse Protective Association, just recently resigning from active duty in that organization. He was an active member of the Doylestown Presbyterian Church.

All his life Mr. Rich has been an ardent Republican.

Mr. Rich's parents were Jonathan and Alice T. Rich, late of Buckingham township.

He is survived by a son, one daughter, a brother, two sisters, three grandsons, five grand daughters and two great-granddaughters. They are: Margaret A. Rich of Doylestown, and Mrs. Mary Pursell, of Philadelphia, sisters; Mrs. Charles B. Williams, of Compass, Pa., a daughter; William S. Rich, of Philadelphia, a brother, and Donald Williams, of Doylestown.

Sportsmen Should Send Lists.

Many sportsmen throughout the state are under the impression it is not urgent that each man who secured a hunter's license ofr 1920 see to it that the stub attached to the end of the license is sent to the game commission at Harrisburg at the close of the season, or as soon thereafter as possible. This is an entirely enormeous impression. The Game Commission earnestly requests that all these stubs be sent in immediatly whether any game was killed or not, and any sportsman who has up to this time neglected to send in his report should see to it that this is done at once.

The work of tabulating the data from the individual reports received is now under way but unless hunters who have not yet sent in their reports get busy, it will delay this tabulation considerably. The data already collected is producing information that will be valuable to every resident of the State.

Do you want your county to fall down in this matter? If not get busy; send in your report and see to it that your fellow-sportsmen do the same.

Scouts as Forest Guides.

Clifford Pinchot, the State's chief forester, has announced that 410 Boy Scouts in Montgomery county have registered as forest guides. The boys have signed pledges to protect and conserve the forests, together with their wild life and plant life, and to prevent and extinguish forest fire.

The Pennsylvania department of forestry is supplying free buttons to all forest guides, and a copy of the Boy Scouts First Book of Forestry, issued by the department of forestry, is also given to each of them.

The forest guide organization was started in October by Forester Pinchot and Solan L. Parkes, scout executive of Reading. Mr. Parkes has been named chief forest guide of Pennsylvania.

25 Fatal Accidents in County During 1920.

Montgomery county industrial workers are victims of 25 fatal accidents during 1920, according to figures issued by Dr. Clifford B. Connelley, commissioner of the Pennsylvania department of labor and industry. Of that number, 15 were killed in manufacturing plants. 10 in public service wark, and none in mines.

Throughout the state, there were 2,528 fatalities suffered by workmen during the last year. 1019 miners were killed, 589 of the persons fatally injured were employes of public service corporations, and 929 worked in industrial plants.

The figures were compiled by the bureau of workmen's compensation.

Bucks Co. Chicken Show.

The attendance of the 19th annual show of the Bucks County Poultry and Pigeon association, just closed, was the most successful ever held.

Fanciers at the show, in which 247 entries competed this year, closed deals with some of their feathered beauties. It was said high prices were brought for some birds. An interesting fact is that chicken fanciers from other counties than Bucks are buying some of the birds.

After the show certain of the birds were prepared for entrance in other shows throughout Pennsylvania. Some of them went to Philadelphia while others remained in Bucks county and prepare to win laurels again next year.

Conshohocken Methodist Celebrate.

Urges Public to Aid Weight Inspectors.

"If people who buy for families will report to the inspectors of weights and measures in their cities any infractions of the law it would help us to catch those who are inclined to short weight or measure customers," declares James Sweeney, chief of the State Bureau of Standards of the Department of internal affairs, in his annual report. He says the inspectors made over 373,000 inspections of weights, measures or scales last year, and that while much good has been accomplished in the past by the enforcement of the weight and measure laws, much more might be achieved if the public were to give the inspector the co-operation he should have."

Chief Sweeney declares people should see that package goods conform to the weight or quantity, and use the telephone when they find they do not get what they pay for. Last year over 29,000 parcels out of over 296,000 inspected were found improperly marked. Almost 1700 counter scales were condemned.

Enforce Potato Ruling.

Secretary Fred Rasmussen, of the department of agriculture, will not change any of the quarantine regulations in regard to planting of potatoes in any of the districts covered by the recent orders. The quarantine effective a short time ago will stand, and only immune potatoes will be allowed in the enumerated districts.

The protests from the Hazelton and other districts will not avail anything, it was declared at the capitol. The secretary holds that if people better understood the regulations there would be no complaint, while his experts declare better results have been obtained from use of immune pottaoes than other varieties.

Gotwal's Estate Valued at $900.

Jacob V. Gotwals, the oldest member of the Montgomery County Bar, late of Pottstown, left an estate valued at but $900 consisting entirely of personal property, according to the petition for letters testamentary accompanying his will which was admitted to probate today.

The will was executed 43 years ago, January 28, 1878, and gives $200 to the Union Philosophical Society of Dickenson College for the benefit of the Library Fund of this society. This bequest was revoked in a codicil executed November 2, 1904.

The residue of the estate is given to decedent's wife, Ettie who is also named as executrix.

The meeting, which will be called to order at 8, is being held for thep urpose of reorganizing the Fort Washington Athletic association and both men and women are invited and urged to attend. There will be an enjoyable feature in connection with the meeting. It is planned by the committee in charge to hold a dance, without charge, at the conclusion of the session. Carl Weber Buried at Rose Hill.

Carl Weber, widely known landscape painter and prominent in art circles over fifty years, who died Jan. 25, was buried Saturday afternoon. He was 70 years old.

Funeral services were held at the home, 1437 W. Norris street, Philadelphia, conducted by the Rev. Charles Santee, D. D., pastor of the Fort Washington Reformed church. Interment was in Rose Hill cemetery, Ambler.

Born in Philadelphia, son of the distinguished Paul Weber, who came from Germany at the time of the revolution of 1848, Carl Weber was reared in the midst of an artistic colony which included Sully, Hamilton and Rothermel.

At the age of 10 he went to Germany with his father and studied in the famous art centres under masters.

He returned here in 1874. His works hang in galleries the world over, and he was the holder of many medals and trophies.

He was the great painter of the woods and hills of Pennsylvania, one of his most noted works being "The Home of the Trout." The scene of many of his paintings was the vicinity of Johnstown, Cambria county, Pa.

Mr. Weber was long a leading figure in the art community here, a director of the Art club and prominent in the famous old Artists' Fund society.

His widow, who was Miss Corn Kaiser, survives, and one daughter, Mrs. Leslie Dager, of Flourtown.

COLD POINT AND PLYMOUTH.

(Continued from page 1).

Mrs. Addis Shoemaker and family, of Hickorytown, spent the week-end in Telford.

Mrs. Wesley Unkel, of Philadelphia, spent a few days recently with her daughter, Mrs. Bieber, of Cold Point.

On Wednesday afternoon occurred the funeral of Mrs. Hannah Warburton, who died Sunday morning at the home of her daughter at Jeffersonville. Interment was made in Cold Point cemetery.

Frank Stead, of Buckmanville, spent Saturday and Sunday with Mr. and Mrs. Jacob Hart, Cold Point, where his daughter and mother are staying for some time.

Mrs. Annie Moyer and Mrs. Eugene Lightkep, of Hickorytown, visited Mrs. Emma Campbell, of Norristown, on Thursday.

On Saturday evening James K. Thompson was tendered a very enjoyable surprise at the home of Mr. and Mrs. Charles Shuman, near Hickorytown, in honor of the former's 76th birthday 75 members and friends were present, and the evening was most delightfully passed with games, social intercourse followed by refreshments. Mr. Thompson has for years taken a most active interest in the grange, has filled many of its offices and has done much to encourage agriculture, besides finding time also to perform many civic duties for Plymouth township and the county. The event was a most delightful and well deserved tribute to one of the township's prominent residents.

Residents of Harmonville, so far this mild weather, have reported peach and maple trees budding, grass growin sheltered places, caterpillars crawling, and one resident who was rooting around on the general dump routed out a snake about 10 inches in length.

Mr. and Mrs. Joseph Frederick, of Logan; Mrs. Joseph O'Byrne and family, of Bridgeport, and Mrs. Samuel Frith, of Norristown, were Sunday guests of Mr. and Mrs. Joseph Frederick, of Plymouth Meeting.

Cold Point grange, No. 606, will hold a sauer kraut supper in Odd Fellows' hall, Norristown on Saturday evening next. The tickets are 35 cents each, which is a very reasonable price for the menu to be served.

Economy to Block Valley Forge Funds.

In line with his policy of economy, it is expected Governor Sproul will try to halt the wholesale purchase of land for the extension of Valley Forge park by urging the repeal of the law which permits the park commissioners to keep adding to the park grounds.

Several years ago the commission received an appropriation of $400,000. Last sesion $250,000 more was turned over to the commission. The commission has added extensively to the area of the park since it received the appropriation two years ago.

A bill is now before the legislature, sponsored by Senator T. Larry Eyre, of West Chester, which would appropriate the sum of $651,000 to the Valley Forge park commission. When he gave notice of his intention not to approve any more land appropriation measures two years ago Governor Spoul wrote underneath his approval of the bill appropriating $225,000: "I am approving this bill with the understanding that the amaunt therein provided will enable the Valley Forge park commissioners to settle for the land required to complete the boundaries authorized by previous legislation. I regard it as only fair now to give notice that I cannot approve any additional appropriations for land at Valley Forge."

Beiler's Ice Cream
in the making

In this series of Articles is explained the thoroughness and completeness in the methods applied in the making of Beiler's nutritious Health Food.

Analization - Standardization.

A complete laboratory is an absolute essential before any Ice Cream plant can be considered modern.

The quality of Ice Cream depends largely upon its ingredients. The laboratory in Beiler's Ice Cream plant is complete and modern, which enables the chemist to have absolute control of the composition thereby producing an Ice Cream of uniform Quality. Each and every gallon of liquid mixed before being frozen is tested to 1-10 of 1 per cent, not only for butterfat but for sugar and other solids.

Another important feature controlled by the laboratory is the arrangement of the composition of the mixture to produce an Ice Cream with a high food value.

Until recently Ice Cream was regarded as a luxury only. But where modern methods are applied a product can be produced which is not only a delicacy, but is also a real staple article of food.
